

Driveway Cleaner DX-12 is a high-performance product that effectively cleans an extremely wide range of oils, greases, transmission fluids, and other troublesome contaminants from driveway surfaces with minimal harm to the environment or the surfaces cleaned. Driveway Cleaner DX-12 is water-based and contains no caustics, acids, petroleum solvents or phosphates, yet it outperforms other harsher and more toxic driveway cleaners on the market and cleans in one application. Driveway Cleaner DX-12 also removes tire dressing overspray which causes white resist spots when driveways are wet.

## Physical Properties

Appearance:	Green Clear Liquid (Mild Odor)
pH (undiluted):	12.0 - 13.0
Weight:	9.18 lb/gal
Specific Gravity:	1.10 g/cc

## Directions

For use on concrete, asphalt, driveways, and parking lots.

1. Apply full strength by trigger sprayer or pump-up sprayer to dry pavement. DO NOT WET SURFACE WITH WATER FIRST.
2. If practical, let soak for a minimum of 1 hour. There is typically no need to scrub.
3. DX-12 may appear to dry on top of surface as it is penetrates deeply to lift up heavy oils, greases, and soils.
4. Hose off with water using pressure from a nozzle. Hot water or a pressure washer will improve cleaning, but is typically not necessary.

## Caution

Keep out of reach of children. Do not take internally. May cause eye and skin irritation.

## First Aid

### Eyes:

Immediately flush with cool water for at least 15 minutes. Remove any contact lenses before flushing. If irritation persists, call a physician.

### Skin:

Wash off with water.

### Ingestion:

DO NOT INDUCE VOMITING. Rinse mouth. Drink 1 or 2 glasses of milk or water. Call a physician.

## Non Warranty

The suggestions and data in this bulletin are based on information we believe to be reliable. They are offered in good faith but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determine the suitability of our materials and suggestions on an experimental basis before adopting them on a commercial scale.
