

Neutral Cleaner 451 is a gentle but effective general-purpose cleaner. Its formulation is designed to give superior cleaning and soil removal without the use of alkaline builders. It is effective in removal of moderate to heavy soil from floors and most hard surfaces that are not harmed by water. The neutral pH of this product allows it to be used in many applications (such as cleaning waxed floors, waxed automotive finishes, fine painted surfaces, etc.) where an ordinary alkaline cleaner would remove the wax and/or damage sensitive finishes. Neutral Cleaner 451 is very mild to the skin and is safe to use. It is biodegradable and contains no phosphates. This safe product may be used in numerous industrial applications where rapid removal of soils, oils and grease is desired.

Physical Properties

Appearance:	Clear Pink Liquid
pH (undiluted):	6.5 - 7.5
Weight:	8.36 lb/gal
Specific Gravity:	1.004 g/cc

Directions

Neutral Cleaner 451 can be used as is or diluted with water up to 1:20. Hot water will improve cleaning results and reduce cleaning time and effort. Use less water or soak longer for heavily soiled surfaces. Neutral Cleaner 451 can be sprayed, wiped, mopped or brushed on surfaces. Allow to soak for a few minutes and rinse thoroughly. Below are some suggested dilutions for average soil loads.

Airplanes	1:8
Automobiles	1:10
Concrete Floors	1:8
Plastics	1:12
Pressure washers	1:20
Sealed Wood Floors	1:10
Terrazzo Floors	1:6
Tile Floors	1:8
Waxed Floors	1:40
